- Socket.io

STRENGTHS

- Clean, maintainable code
- Scalable architecture
- Responsive UI design
- Client communication

Nadia Noor

MERN STACK DEVELOPER

PROFILE

Full-stack developer passionate about building modern, high-performance web applications. I specialize in the MERN stack (MongoDB, Express, React, Node.js), turning complex requirements into maintainable, scalable and well-designed solutions. Driven by clean code, thoughtful architecture and digital experiences that genuinely serve users.

EXPERIENCE

MERN Stack Developer

2+ YEARS | 15+ PROJECTS COMPLETED

- Built and delivered 15+ full-stack web applications using MongoDB, Express.js, React.js and Node.js.
- Designed clean REST APIs connecting React frontends with Node/Express backends.
- Implemented JWT authentication, role-based access and secure checkout flows.
- Developed real-time features (chat, live updates, order tracking) using Socket.io.
- Maintained code with Git and GitHub using clean collaborative workflows.

FEATURED PROJECTS

E-Commerce Platform

REACT, NODE.JS, MONGODB, EXPRESS

Shopping app with product catalog, cart, secure checkout and admin dashboard. JWT auth and real-time order tracking.

Task Manager App

REACT, EXPRESS, MONGODB, REST API

Collaborative project management tool with real-time updates, drag-and-drop boards, user roles and deadline notifications.

Blog Platform

REACT, NODE.JS, MONGODB, JWT

Blogging platform with rich text editing, categories, comments and JWT-based author authentication.

Dashboard Analytics

REACT, EXPRESS, MONGODB, CHARTS

Admin dashboard with real-time charts, user management, data filtering and MongoDB aggregation pipelines.

Real-Time Chat App

REACT, NODE.JS, SOCKET.IO, MONGODB

Private and group messaging with online status indicators and message history stored in MongoDB.

Job Board App

REACT, EXPRESS, MONGODB, REST API

Job platform where employers post openings and candidates apply, with filtering, search and profile management.
